Dear friends,

In my last newsletter I had mentioned some challenging times in the coming time. You must have already heard of a few of the happenings. The bomb blasts in India. Few minor earthquakes, and the news of Iran. This is only a trailer of things to come. From middle of May to middle of July, some great calamities may be in store. The south/southwest coast of America may get a big storm or earthquake. Great loss and destruction may be expected. Some fire may break out in the forest areas. War looms at the horizon. The country will experience some worst conditions. Oil prices have already gone higher, and may touch 3.5\$ a barrel. Land prices will also go up. Gold will touch its highest in this month. The U.S. Dollar will lower further in the international market.

There may be some great calamity in the United Kingdom.

London may be the prime target. The Queen may have some heart problem. A national mourning may happen.

India will be faced with internal problems within the government. Crops may get damaged due to heavy rains.

Some great destruction in the neighbouring country. Fire and water will destroy. Many ships will go down and a great fire burns on land!

People who have the moonsign of gemini, sagittarius,

Aries and Capricorn should exercise extra caution during this period.

These testing times for mankind will come time and again. The righteous shall prevail. Faith, wisdom, discrimination, and the righteous way of life will protect the virtuous.

We should all pray to God for the welfare of mankind.  
"LOKA SAMASTAA SUKHINU BHAVANTU"

God bless

Dr. Rakesh kumar  
Chairman  
ISHWAR USA INC  
Ph: 646-238-2570.(New York)

Today is April the 19th. Sun moved into Aries on April 14th
