Dear friends,

You must have heard of the bomb blasts in Egypt that took more than 100 lives and hundreds were injured. I had mentioned in my previous newsletter that there would be some blasts in India's and nearby countries. Few days ago there was a bomb blast in India and a big fire. Some neighbouring countries may also have similar blasts and land related calamities. The gulf area is also very susceptible to some destructions. Some great natural calamity may befall Australia soon. Australia is south of India and I see something happening there too.

Venus moves into Pisces on April 29th, just two days after the new moon. There may be some vehicular accidents and shipwrecks during this transit. Dark clouds hover in the south/southeast regions and tropical revolving storms (cyclones) cause great havoc. The south coast of America may also expect some

calamities.

The Pakistani president General Musharraf will experience some dangers within the next 2 and a half months. Likewise, his friend George Bush. He will experience the lowest during this time to come. A dangerous situation may develop for both of them. Pakistan will see a lot of turmoil and civil and military disobedience during this time.

The next few months will also see the downfall of some politicians. Some major political changes may take place in the world. Places next to water and desert, or else places with wide barren lands may get most affected.

Pregnant women, people having cardiac problems and asthma should take extra precautions. The time starting from May 25 to July 13th is a time to take extra care.

This is generally a time of upheavals and changes in the climatic conditions. Nature hath no mercy and its fury shall be felt. Saturn, the hard taskmaster is in no mood to please. Jupiter, the divine, the Guru may bless many with protection and grace. Therefore its time to pray for ourselves, for mankind, and live a righteous life, with a heart full of love and compassion, with a mind as peaceful and calm as a silent lake, with the senses detached from materialism, and with the consciousness in God.

God bless

Dr. Rakesh Kumar
