NEWSLETTER – JUNE 1, 2006.

Dear friends,

Well, the month of June has started and some planetary positions change. The Sun moves into Gemini on June 16th, and Mercury moves into Cancer on June 21st, in conjunction with Saturn and Mars. The full Moon occurs on June 11th and the New Moon occurs on June 25th. From June 21st, Saturn and Mars come up to the same declination of 18 degrees.

Now this brings few things to my mind. The places that are between the latitudes of 15 degrees to 22 degrees north and south of the equator would be most susceptible to some major storms and natural calamities. The earthquake that hit yogyakarta in Indonesia happened on a new moon day.

Points of observation :

TSUNAMI happened on 12/26/2004. The date 26th adds up to 8. All the digits added together gives another 8. $(12+26+2004=3+8+6=17=8)$ It was a full moon day. Saturn in cancer aspected Jupiter and Rahu.

BOMBAY FLOODS happened on 7/26/2005. Again, the date 26th. Saturn in cancer aspected mercury, sun and mars. Jupiter with moon, Rahu and ketu. All digits added together gives the number 4, which is an octave of number 8.

KATRINA happened on 8/29/2005. All digits added together gives number 8. Saturn in cancer aspected mercury, Jupiter, ketu, Rahu, Venus and mars.

STORM RITA happened on 9/19/2005. All digits added together give number 8. It was a full moon day. Saturn in cancer aspected Jupiter, ketu, sun, mercury, moon, rahu and mars.

INDONESIA EARTHQUAKE occurred on 5/26/2006. The date and the year are both 26 which is number 8 again. It happened on a new moon day. Saturn aspected mars by conjunction, and also ketu and Venus.

In every case of some major calamity, it is seen that Saturn aspects mars, Rahu, ketu and Jupiter. Mars is to do with land, thereby indicating destruction of land. Rahu and ketu are karmic planets, and Jupiter is the planet of dharma. Therefore whenever the adharma, or non-righteousness starts exceeding, (indicated by Saturn, then the karmic controlling planets Rahu and ketu also align themselves to cause some natural calamity. Jupiter, the protector is helpless to save.

I had been predicting these major calamities since May 2005 and the first thing that happened was Tsunami. Thereafter, most of the predictions have also been manifesting. I had been predicting that from May 25th onwards, to July 13th 2006, the planets are in a disbalance and some major calamities are going to take place around the world, particularly earthquakes and big storms and flooding.

The next new moon is on June 26th! June 25th to 28th is to watch out for. Saturn, mars, and mercury all in cancer. Saturn aspects mars, mercury, ketu and Venus. Overall the time from June 21st, to July 13th is going to be very difficult for many places, and for many people. I see major storms, floods and a lot of destruction.

Places that are in the latitudes between 15 degrees to 22 degrees are most susceptible. If we have a look at the atlas, places like South China Sea, certain parts of India, (south east coast and southwest coast) Thailand, Philippines, Gulf of Mexico, Florida, and all places south of Florida, and north of Australia may experience some natural calamities.

While in cases of natural calamities, there is little one can do. You can't just run away from places from the fear and speculation. Individually, one can certainly do things to tide over these difficult transits. You should follow all the P's.

Precaution – Take care of your health, and take extra care when driving. Do not travel long distance during this time. Do not overstress yourself.

Patience- Exercise patience and tolerance when dealing in your, workplace or office, and with your family members. These planets can create a disturbing effect on the mind. Impatience and irritation can creep in which can create anger.

Purse- Save on your expenses. There can be losses, therefore do not speculate or gamble, and avoid any major purchases. Bad time to make big purchases.

Pray- The best thing to do! It gives you a healing, protects you and gives you an inner calm to deal with difficult situations. It saves you from many miseries.

Practical wisdom- Always use your sense of right judgment and practical wisdom. Exercising practical wisdom alone can save you many troubles. Don't confuse mind with wisdom. Mind is like a monkey. Forever restless and unsure, and a victim of senses. Wisdom arises from intellect, knowledge, patience, experience and the voice of the conscience.

God bless.

Dr. Rakesh Kumar
