WISH YOU ALL A VERY HAPPY NEW YEAR!!!

Dear friends

My newsletter was long overdue, and now it is time to observe the planets as we enter into the New Year 2007. In the beginning of January, Saturn was in leo, Rahu and ketu were in Aquarius and Leo respectively, sun was in Sagittarius, Jupiter in Scorpio, Venus in Capricorn and mercury in Scorpio. Saturn was along the axis of Rahu and ketu, and I had mentioned in my previous newsletter that there would be a shift on the earth's axis, and that there would be changes in the earth's environment and we could experience some unusual weather. People who follow the world news would have heard that north India is experiencing a historical low temperature. You must have heard of snow in Texas and California, but a fairly warm winter in New York.

Now, Saturn moves back into cancer on January 10th, by retrograde motion. Sun moves into Capricorn on January 15th, and Mars moves into it on February 19th. This month between mid February and mid March could see some difficult situations for some people. President Bush being one of them. I had already mentioned earlier that his decline from power would begin now, and his popularity would be at its lowest. I had written that a woman leader would emerge who would sway the congress.

India would experience many unusual deaths due to weather and some devilish works of some people during this month and till mid February. Some eastern country would stand up against America within the next couple of months. U.S.A will have a real tough time trying between diplomacy and aggression. There would be testing times for the homeland security next month.

In the Middle East, there could be some great massacre in some Muslim country. Or there could be some landslide/explosion/fire that would cause much destruction. There could be some gruesome murders. Evil forces would be rampant till the middle of the year.

People who have the moon signs –cancer, Capricorn, Aquarius, Leo, and to some extent Aries will see some difficult times. Those who have the moon signs of Scorpio, Taurus, Libra, Pisces, and Virgo will have some positive changes and good results this year. Those who have the moon in Gemini, cancer and Leo will be under the influence of the seven and a half year period of Saturn, which is generally a difficult phase.

America is going through the last year of the major period of Moon, which finishes in October 2008. Then the major period of Mars begins. I had mentioned in my programme on WBAI FM 99.5 (host-Kathy Davis) seven years ago that this major period of Moon will be bad for America. There would be deaths, destructions, disasters and war situations in the country. We have had enough with WTC, Iraq war, Katrina in New Orleans and a few more.

As long as the planet Earth exists, there would always be some situations or the other. Some created by man, some by nature, while some by way of pre-ordained destiny. What we could do is watch our Karma, and listen to our conscience. Good Karma results in Dharma. Performing your Karma by following your conscience leads to an awareness of your consciousness. Once you identify yourself with the consciousness, then one could get free from all Karmas. Then the soul merges with the divine consciousness – GOD.

Hope to see all of you there, one day, some day.

God bless

Dr. Rakesh Kumar
