Dear friends

On November 17th, the Sun moves into Scorpio. Mercury remains in Libra and moves into Scorpio on Nov 28th. Venus remains in Virgo till the end of the month. Jupiter is in Scorpio till Nov 22nd, and then moves into Sagittarius after one year. Saturn remains in Leo, and Rahu-Ketu remain in Aquarius and Leo respectively.

So between Nov 17th to the end of Nov, we will see some good planetary changes. For America, there will be some very positive changes coming soon. There will be collaborations and partnerships with foreign countries, from which the country's economic and financial conditions gets a boost. The stock market and real estate business will improve, and the defense system too gets some new artillery. America will start recovering its financial losses and will do well in the year 2008. India too, will benefit greatly on similar areas. I see that America and India will shake hand over some Major deals, which may be military, defense, and many multinational deals. Wisdom and righteousness will start prevailing over people and life in general starts looking up. People will start smiling again, and some big health/medical upgrades are foreseen. Differences between the governments will be resolved and a new friendship treaty will be found.

For people who have the moon sign of Sagittarius, Gemini, Aries, Leo, Virgo and Pisces will benefit during this year. Leo and Aquarius moon signs will continue dealing with the seven and a half year cycle of Saturn, and Rahu-Ketu conjunction with it. People in the IT industry and in fields of education will also benefit. Stocks will soar, and businesses that involve some means of communications will flourish, like the phone, computers, etc.

The most important thing that will be seen and experienced is that people will start recognizing spiritual values and this will be the beginning of the new age, and will produce people of high intelligence and consciousness. More and more people will take to the spiritual path, and evolve their souls. God is in a mood to shower His grace upon those who deserve, and those who seek.

What the world is going through today, is because of what man has made for himself, so its time to unmake and remake our minds and consciousness, with a heart full of compassion and love for a fellow human being. Believe in the brotherhood of man and fatherhood of God, and come out of materialism, and identify ourselves as souls, and start working towards raising our minds and consciousness to a higher level, for a higher purpose, so that at the end of it, we merge with God.

God bless
