Dear friends,

Here is an update on my previous predictions.

I had written that there would be some great difficult situation to the government of India. I had also mentioned of floods,destructions and terrorist attacks. Natural calamities in different parts of the world.

Update : Great floods have already happened in India, that of worst in history.

The government almost fell with some parties threatening to withdraw support.

Yesterday, two bombs exploded in the city of Hyderabad as Islamic terrorists struck India.

Today, half of Greece was burnt in a great fire which almost destroyed the city of Olympia. The fire still rages on.

America has already had tornadoes destroying parts of mid west. There has been no electricity in many areas for long periods.

The danger time is still on until September 17th. Please do not forget August 28th, the Tuesday, when we have the full moon and the total lunar eclipse. The eclipse starts early in the morning around 4:30 and ends at 8:30 am. EST.

Please take care about food, travels and important decisions.

All should pray inwardly to God and be pure in food (vegetarian) thought and action. People should keep away from potentially bad/dangerous places.

Praying during the first hour after sunrise will be most beneficial.

God bless.
