Dear friends

Tomorrow is an annual Solar eclipse. The eclipse starts at 07:09 am IST and end at 11:42 am. These timings are Indian standard times, and all can apply the time zone difference to get their local times.

It is a new moon tomorrow, with moon in Capricorn. Sun and Mercury are also there in conjunction. Venus and Jupiter are together in Sagittarius, Saturn in Leo with Ketu, and Rahu in Aquarius. Mars remains in Gemini.

Whenever there is an eclipse, there are some changes in the cosmic energies, and all should be careful and cautious. There are some mandatory rules regarding an eclipse. One should not eat animal food, only vegetarian food and fruits should be eaten. All must pray and be pure in body, mind and thoughts. No major decisions should be taken during the eclipse. No travel should be undertaken. Children should not be born in eclipses and major operations and surgeries should be avoided. In short - low key.

From February 14th onwards, the Sun comes into Aquarius, in conjunction with Rahu and Uranus, and opposite Saturn and Ketu. This combination lasts until 14th March. In between there will be a full Moon on February 21st, and another New Moon on March 7th.

I feel that during these times, there will be a great spiritual aura and energy around and many people's lives will transform to a higher level of consciousness. I also feel that there may be cosmic phenomena during this time. This month will be a very auspicious time for those who seek liberation, Mukti, Moksha. The souls of the Astral world (Hiranya Loka) will be playing a part in the divine mission of God.

At the worldly and material level, there may be some chaos and difficulties. People who have the rising sign or Moonsign of Aquarius, Leo, Pisces, Cancer, Scorpio and Capricorn should be careful. Some will be moving, changing residences, some families parting, some will face dangers, some will lose jobs and some homes. Unknown and sudden things may happen. The effect on each one would depend on one's individual horoscope.

On the spiritual side, this is a great time for initiations, Deeksha, and starting mantras, initiation into ashrams, and starting spiritual or religious works.

May God bless all of you and bring about the transformation of humanity.

Best wishes

Dr. Rakesh Kumar
