Dear friends,

Since late last year, there have been so many natural disasters such as earthquakes, floods, volcano eruption, oil spills, threats and generally bad news. I have been waiting until today to write my latest newsletter and predictions. Today, the planet Jupiter moved. Mars, the destructive planet has been unusually long in Cancer and will move soon in Leo. Then July 20Th up to September 5Th, a very dangerous combination of Saturn and Mars takes place in Virgo. I have written about the effects of these planetary wars in my newsletter. Please log on to www.ishwarcenter.org to read all about it. On the left side, you will see a link MONTHLY NEWSLETTERS. Click on that and read the latest.

God bless Humanity

Hello friends,

My newsletter has been due since quite sometime, and I thought that today, was the best day to write it. Today, May 2nd 2010, the planet Jupiter moved from Aquarius into Pisces. This is a significantly important shift for many people. As of today, Saturn is in Virgo, Rahu is in Sagittarius, Sun in Aries, Moon in Sagittarius, Mercury retrograde in Aries, Venus in Taurus, Mars in Cancer and Ketu in Gemini.

Mercury becomes direct on May 10th, and Mars enters Leo on May 26th. Mars has been in Cancer for an unusually long time, almost 7 months, since halfway through it went retrograde. Mars will be in Leo for only 2 months and then it enters Virgo, joining up with Saturn. Mars and Saturn will be together in Virgo from July 20th until September 5th. This Mars-Saturn conjunction may cause problems for some people and some countries and other world situations.

First of all, let me explain to you as to why since the last year, there have been so many natural disasters, earthquakes, landslides, fires, volcano eruptions and so on. If you observe, all these disasters were land related. Mars controls land. Mars has been in Cancer since October 2009, until May 26th this year. Mars is generally a planet of destruction, violence, wars and disharmony. So whenever the planet Mars transits in some unfavorable sign, the situation becomes bad. Mars is debilitated in Cancer, so the effects were negative.

For America, it was and will be the neighboring countries that will be affected. Like Haiti. Even within the country, the south part would be susceptible. As per America's chart, there will be some financial crunches and some high rank official or someone from the government would be in big trouble, because of a financial scam, and some illegitimate connections. Automobile companies and financial institutions will find the going hard. Some businesses will close down. Some big star would also pass away this year. President Obama will get some success and redeem some credibility. However he may have an accident and should be careful. I wish someone told him to wear a White Sapphire!

I mentioned in my last newsletter that the economy would become better, and I continue to stand by my statement. I had also said that America would be totally relieved from financial and other challenges from November 2011.

For India, the time is very dangerous. There could be terrorist attacks, dangers from natural calamities, accidents of some airliner or train, and serious threat to the country itself. The danger will be from the neighboring countries. The next 2 weeks are very crucial. In fact, both for India and America, there will be a dangerous situation from July 20th until September 5th. There could be natural disasters, many deaths, violence, terrorist attacks, and even the government will experience some disparity and disharmony. There would be some Military or Police situation, which will become national news.

Luckily, there are protecting forces and the rest of the time there will be great prosperity for India. Some new political leaders will come into prominence. Looks like the country will go through some wash down, and I see some new changes coming soon.

Now for individual charts. Those who have the Moon sign of Cancer, Scorpio and Pisces will experience a very positive time in their lives. They will see progress, prosperity, financial security and general harmony. Those who have the Moon sign of Gemini, Aquarius, Leo, Virgo and Libra are going to be under the effect of Saturn. Of these, Gemini and Sagittarius will be doubly affected because of the additional impact of Rahu and Ketu as well.

Apart from being aware of the situation, people should pray, be observant, be focused, and should not try to be adventurous during such times. One should never dwell in Ego, and rather be humble. And follow the principle of A B C. of life. **Always Be Careful.** Not only of what is around you, but also what is within you. A righteous life, prayers, and wise attitude often gets one away from many troubles. Karma and destiny are interlinked. But our present good Karma may redeem the consequences of some bad Karma, and man is saved from many troubles. You can be **SAVED**, by elimination these very words from your life.

S- Sins
A- Anger
V- Violence
E- Ego
D- Delusions.

Love all, Serve all, Help ever, Hurt never.

God bless all
