

THE MAN WHO CAN SEE TOMORROW...

Predictions & Fulfillments

- DR. RAKESH KUMAR (PH.D.)

Dr. Rakesh Kumar (Ph.D.) is the Founder & Chairman of ISHWAR USA, a non-profit organization, registered under section 501(C)(3) of the IRS in the U.S.A. He is a Holistic doctor, Philosopher, Herbalist, Spiritualist, Author and an Astro-Scientist with vast experience in the subjects. He is also a regular speaker on WBAI radio, 99.5 FM New York.

He has done extensive research about the influence of the planets in our Solar system, their potent energies and their effects on planet Earth and on human beings. Since the past 25 years, he has been helping people overcome their personal and health problems and bringing healing and happiness in their lives.

Based on his research and discovery, since the past 12 years or so, he has made some amazing world predictions which all came true. The planetary energies not only affect people but also countries around the world. What's more, he made all these predictions much before they happened. His predictions have always proven to be true some way or the other. He is what we could call the man with a future vision, or "The man who can see tomorrow". **By heeding his predictions, many difficult situations in the world can be averted, if timely action is taken. Dr. Kumar says, "Everything is not inevitable and much has to do with our actions and reactions. This is how the Cosmic Law works."**

Some of Dr. Rakesh Kumar (Ph.D.) prediction highlights include (but not limited to):

- **Indian** Congress party loses elections and **government taken over** by the newly formed Common Man's party – December 2013 (Prediction #77 made on November 16th 2011)
- **Hillary Clinton Resigns** Formally from Secretary of State Post – February 1st 2013 (Prediction #62 made on 10/20/2012)
- **Barack Obama wins 2nd term** of Presidency (Prediction #60 made on 10/20/2012)
- **War-like situation between Middle-East Islamic countries and America** (Prediction #59 made on 7/4/2012)
- The recent great **Economic crisis** of America and of the world (Prediction #20 made on 8/31/2008).
- **Wiki Leaks** and other big government and financial scams (Prediction #38 made on 5/2/2010).
- **Japan's devastating Tsunami** (Prediction #42 made on 7/1/2010).
- **Barack Obama** becoming the next President of the United States (Prediction #18 made on 6/17/2008), and also **Barack Obama** winning the Democratic nomination over Hillary Clinton (Prediction #15 made on 2/12/2008).
- **George Bush** winning against Al Gore and the Florida re-count. George Bush winning again against John Kerry.
- **South Asia Floods** of August 2007- the worst flooding in living memory (Prediction #12 made on 6/17/2007).
- Devastating storms like **Katrina** (Prediction #2 made on 5/28/2005) and **Ike** (Prediction #17 made on 2/19/2008).
- The **London bomb blasts** of July 2007 (Prediction #1 made on 5/28/2005).
- **"God Particle" scientific discovery** of July 2012 (Prediction #33 made on 12/21/2009). He predicted this almost 3 years back.

There are many more amazing predictions that he made, a summary of which is attached herewith. They are all documented with dates and times to prove the authenticity of these statements. It does seem that he is indeed is the Man who can see tomorrow.

So if Dr. Rakesh Kumar has the unique gift of foresight, we can then perhaps pay attention to his predictions and do something to stop whatever bad is supposed to happen. We can take precautions to avert huge losses of lives and billions of dollars. We can even avert a major world war, if any such great mass destruction is foreseen by Him. As he says, "Forewarned is Forearmed."

Dr. Rakesh Kumar not only gives out his predictions, but also offers words of wisdom and how we should/could avert the crisis on humanity.

We seek your support to help us in our mission. It is also your mission. A mission for humanity. Nothing is impossible. Even in the word Impossible, you could say I'm possible. Yes you are!

Yes we can make the difference. Let's all get together, and 'Save the World.'

God bless the world!

77	11/16/2011	<p>Predictions made on November 16 th 2011: “For India, the situation does not look good. Within 3 years from now, the country will see many changes and dissolutions. In all probability, the present government will fall. <u>Some very famous celebrity and politician will pass away.</u>” http://www.ishwarcenter.org/newsletters/archives/2011-11-16.pdf</p>	<p>The government in India fell. Congress lost the elections and a new party will form the government soon. At that time [Nov 16th 2011] and until 3 months back, the Congress party was very strong and no other party could ever imagine defeating the Congress. Recently, one man stood up and formed his own party, called The Common Man’s party, and he took the whole country by a wave of popularity, and that most unexpectedly tilted the balance. This kind of a thing has never ever happened in the history of India or in any other country in the world. - December 2013</p>

The U.S. should exercise great restraint in its military actions or else there could be great losses http://ishwarcenter.org/newsletters/archives/2012-07-04.pdf</p>	<p>Predictions prove true: <u>Muslim provoked war-like situation in Middle East against America</u></p> <ul style="list-style-type: none"> September 12 2012: US ambassador Chris Stevens, killed in Libya: one among the four Americans killed, in an extremist revolt of muslims against the movie "Innocence of Muslims". President Obama said "The United States condemns in the strongest terms this outrageous and shocking attack." He said the US is working with the Libyan government to bring the attackers to justice. "Make no mistake, justice will be done," Obama said, pausing slightly to underscore the declaration. http://www.guardian.co.uk/world/middle-east-live/2012/sep/12/libya-egypt-attacks-muhammad-film-live September 11 2012: Egyptian protesters, largely ultraconservative Islamists, climbed the walls of the US embassy in Cairo on Tuesday, made their way into the courtyard and brought down the flag, replacing it with a black flag with an Islamic inscription to protest a film attacking Islam's prophet, Muhammad. President Barack Obama says he will decide whether Egypt is an ally or an enemy of the United States in part according to the way the fledgling government in Cairo responds to the violent assault on the American Embassy there, which happened on Monday, september 10th 2012. http://news.yahoo.com/blogs/ticket/obama-warns-egypt-ally-enemy-140958144--election.html "I don't think that we would consider them an ally, but we don't consider them an enemy. They're a new government that is trying to find its way," Obama replied in what, by the standards of diplomatic talk, amounted to a blunt warning. 21	8/31/2008	<p>Predictions made on 31st 2008:</p> <p>This time is not good for America, as all these planets cluster up in the 8th house from the Moon sign Aquarius. There could be storms, great destruction, transportation severely affected, and accidents could take away lives. This month is not a good month for holidays and travels. There would be some areas in the South and East which would get badly affected. Countries in south east, far east and the <u>Southern coast of America is highly susceptible to vagaries of the weather and fury of nature.</u></p> <p>Water borne diseases could be a cause of concern. Land and property will also suffer.</p> <p>http://ishwarcenter.org/newsletters/archives/2008-08-31.pdf</p>	<p>Predictions prove true:</p> <p><u>Hurricane Ike Sept 1-14 2008:</u> Ike was the second costliest tropical cyclone in U.S. history, and the costliest storm ever in history of Cuba. Its damages are estimated to \$37.6 billion (2008 USD). It became the largest search-and-rescue operation in U.S. history. It was also resulted in millions leaving the Houston/Galveston area and other parts of Texas.</p> <p>Ike was blamed for at least 195 deaths. Of these, 74 were in Haiti, which was already trying to recover from the impact of three storms earlier that year: Fay, Gustav, and Hanna. In the United States, 112 people were killed, and 23 are still missing. Due to its immense size, Ike caused devastation from the <u>Louisiana</u> coastline all the way to the Kenedy County, <u>Texas</u> region near Corpus Christi, Texas. In addition, Ike caused flooding and significant damage along the <u>Mississippi coastline</u> and the <u>Florida Panhandle</u>. Damages from Ike in U.S. coastal and inland areas are estimated at \$29.6 billion (2008 USD), with additional damage of \$7.3 billion in Cuba (the costliest storm ever in that country), \$200 million in the Bahamas, and \$500 million in the Turks and Caicos, amounting to a total of at least \$37.6 billion in damage.</p> <p><u>Ike was the second costliest Atlantic hurricane of all time, only surpassed by Hurricane Katrina of 2005</u> (not adjusted for inflation; if adjusted, Ike would be the third costliest storm). It became the largest search-and-rescue operation in U.S. history. It was also resulted in millions leaving the Houston/Galveston area and other parts of Texas. However, Hurricane Rita still holds the designation as the largest U.S. evacuation in history. At one point, Ike was over 600 miles in diameter. http://en.wikipedia.org/wiki/Hurricane_Ike</p>

20	8/31/2008	<p>Predictions made on August 31st 2008 <u>Financial challenges continue for the country and recession could hit at maximum.</u> http://ishwarcenter.org/newsletters/archives/2008-08-31.pdf</p>	<p>Predictions prove true:</p> <ul style="list-style-type: none"> • <u>Wall Street financial collapse of 2008.</u> The collapse of the economy due to the crash of the Wall street, is the worst financial collapse that America suffered so far. • In 2008, a series of bank and insurance company failures triggered a financial crisis that effectively halted global credit markets and required unprecedented government intervention. Fannie Mae (FNM) and Freddie Mac (FRE) were both taken over by the government. Lehman Brothers declared bankruptcy on September 14th after failing to find a buyer. Bank of America agreed to purchase Merrill Lynch (MER), and American International Group (AIG) was saved by an \$85 billion capital injection by the federal government. Shortly after, on September 25th, J P Morgan Chase (JPM) agreed to purchase the assets of Washington Mutual (WM) in what was the biggest bank failure in history. • In fact, by September 17, 2008, more public corporations had filed for bankruptcy in the U.S. than in all of 2007. These failures caused a crisis of confidence that made banks reluctant to lend money amongst themselves, or for that matter, to anyone. http://www.wikinvest.com/concept/2008_Financial_Crisis http://www.globalissues.org/article/768/global-financial-crisis • <u>Global Financial Crisis of 2007-2008.</u> The late-2000s financial crisis, also known as the Global Financial Crisis (GFC) or the "Great Recession", is considered by many economists to be the worst financial crisis since the Great Depression of the 1930s. The bursting of the U.S. housing bubble, which peaked in 2007, caused the values of securities tied to U.S. real estate pricing to plummet, damaging financial institutions globally. The financial crisis was triggered by a complex interplay of valuation and liquidity problems in the United States banking system in 2008. http://en.wikipedia.org/wiki/Late-2000s_financial_crisis
