Dear friends

There is a total Solar eclipse coming up on July 11Th and there could be many dangers and difficult situations for the world and for America. I have also written about people with certain Moon signs who need to be careful. Please read all about it by clicking the link below.

God bless

Dr Rakesh Kumar

Dear Friends

I had written in my previous newsletter about the difficult times ahead regarding natural calamities, and other situations. Next week, on July 11<sup>th</sup>, we have a total Solar eclipse coming up. The New Moon and the total Solar eclipse will create some disturbing Cosmic energies and will affect many countries around the world.

As per Vedic Astrology, the Sun, Moon, and Ketu are together in Gemini and Rahu opposite them. Mercury is in Cancer, Mars and Venus together in Leo, and Saturn in Virgo casting his glance at Sun, Moon and Ketu. This is not a good situation and could cause dangers all around. The Earth will shake due to strong electromagnetic forces and will cause a lot of disruption on Earth.

Countries and places around water would get most affected. Islands, peninsulas, and gulfs would be most susceptible to major dangers. There could be floods, storms, Tsunamis, and many accidents. I also see areas of green getting affected. Flora, fauna, valleys and lakes could be affected. All these need not happen just on July 11<sup>th</sup>, but does create energies for these things to come soon.

Financial situation in America will be worst affected and the Wall Street will be hit. There would be serious differences in the leaders of the government. Whatever the country tries to do to make up for the financial deficit, it would end up spending huge amounts due to other losses. Floods, storms will also take its toll. Oceans will be rough, rivers will overflow, and the sea life would also get affected.

People are advised not to travel on July 10<sup>th</sup> and 11<sup>th</sup>. No major investments, purchases should be done. Avoid any major medical procedures during these 2 days. Those who have the Moon sign of Gemini, Scorpio, Capricorn and partially the sign of Pisces should be most careful. Eat only pure vegetarian food, keep a low profile, and do not go outside to pubs, clubs and such public places.

There could be major health hazards, and viruses spreading. Most of these would be water related, allergies and some sort of poisoning, or food poisoning. It would be best to stay at home and try to meditate or pray. One could even do things like listen to some soothing and harmonious music or devotional songs.

As per America's chart, Jupiter, Sun, Venus and Mars are all in Gemini. Looking at the overall planetary transits, the situation does not look good for the country. Nature destiny shall unleash its fury upon the land and the belly of America will be hit. The security, the military, the government, its finances and modes of transportation will all be vulnerable to dangers.

At times like these, everyone needs to follow this formula:

- P- Precaution** - Take all precautions to avoid problems or situations.
- R- Restraint** - Exercise restraint in all actions, mind and senses.
- A- Awareness** - You should be aware of every prevailing situation.
- Y- Yoga** - Yoga and meditation is the best way to control mind, senses.  
Meditation on God is the best way to be spiritually protected.

God bless the world.
