2014 Predictions

Dear Friends,

2013 has ended and the New Year 2014 is about to begin. Let us see how the planets are placed in the zodiacs and what they foretell for this New Year.

On January 1st, 2014 at 0001 hrs, the sign Virgo is rising with Mars in there. Saturn and Rahu are in the 2nd house in the sign of Libra. Saturn is very powerful in Libra. The Sun, Moon and Mercury are placed in the 4th house in the sign of Sagittarius, Venus is in the 5th house in Capricorn, Ketu is in the 8th house in Aries and Jupiter is in the 10th house in Gemini. The major period of Venus and the sub period of Moon is in operation.

Predictions for America:

New York will wake up to the New Moon on the New Year day. We are going to start with cold, clammy and cloudy weather. May not be such a great opening. But the rest of the year looks promising. There will be good businesses, more job openings and more spiritual awareness. Share markets will open with caution and may expect a low graph, but after middle of January, financial sectors will do brisk business and towards February, everything will be rolling fine. So a good and promising beginning for 2014.

I cannot say the same for President Barack Obama. He will continue to get stress and opposition in his office. His health will be at risk and he should seriously take care of his cardio vascular system. He will only see better days after June/July 2014. President Barack Obama will get some spiritual inspiration around July/August and will be blessed. He will take to a spiritual path later in life. Michelle Obama should stay clear of media and public appearances. She may get bad reviews as her Mercury is with Ketu.

Bill Clinton may have a constricted artery and may have to go for a surgical procedure. I had predicted about Bill Clinton's heart problem in my earlier newsletters. I had also predicted that Hillary Clinton will have some serious health problems and she may have to step down from her position, which she did on February 1st 2013. (Newsletter July 4th and August 20th, 2012)

Going further – I do not see Hillary Clinton becoming the President of the United States. So if the democrats want to win the 2016 elections, they had better find some good candidate. I

would love to see the horoscopes of all the aspiring Presidents and would then say who would be the best President for this country!

Another thing I foresee is that the United States will have misunderstandings with its allies and other countries. There may be some issues with treaties, bonds, documents or agreements that will be a problem getting signed or agreed upon. The media may face some problems, or some articles or stories published by the media may create a misunderstanding which may hamper progress of this country. Communication systems will get affected by some unforeseen causes and some snags may develop in the satellite systems or some data base may get stolen or corrupted. I also see that there may be some situations about some kind of food contamination that will affect the digestive system of people, something like food poisoning. All of these may happen between now and November 2014.

Predictions about India:

On November 16th 2011, I had predicted: "For India, the situation does not look good. Within 3 years from now, the country will see many changes and dissolutions. There will be upheavals and great changes coming in the country. There will be some new faces, and the country will have a facelift. In all probability, the present government will fall. Some very famous celebrity and politician will pass away."

Now the news:

One: The government in India has fallen recently. Congress lost the elections and a new party will form the government soon. At that time [Nov 16th 2011] and until few months back, the Congress party was very strong and no other party could ever imagine defeating the Congress. Recently, one man stood up and formed his own party, called The Common Man's party, and he took the whole country by a wave of popularity, and that most unexpectedly tilted the balance. This kind of a thing has never ever happened in the history of India or in any other country in the world.

Two: A superstar from the Indian film industry of the 70's and 80's, Rajesh Khanna, suddenly died at a fairly young age. He was the biggest super star the Indian film industry ever had. Many girls got married to photographs of Rajesh Khanna. Young girls used to write love letters to him in their own blood! He was like a God. There has never been such a mass hysteria." B.B.C made a film on him called The Bombay Superstar. The whole country was grief stricken and the city of Bombay was paralyzed with processions of the super star parading all over the city. Many came from overseas just to attend his funeral. He had a massive following.

On November 2011, I had predicted that the next 3 years will change the face of India, politically, socially and economically. I had mentioned about this great change in India a few more times in my other newsletters. Now that change has happened. There will be more changes after July 2014.

Spiritual Awakening:

Many people and many scriptures had written that the world would be coming to an end, starting from Nostradamus, Edgar Cayce, the famous Mayan calendar and year 2012. And

years have gone by and every time I tell people “Don’t worry, nothing will happen to America or to the world, and I promise that I will be back at the end of the year, with more predictions” and here I am again! So my story is the same – No, the world is not coming to an end. Not now, not soon. God has changed plans and He now wishes to transform the world rather than let people destroy it. God even changed the planetary influences and the great wheel of time so that He may bring the great change in humanity to usher planet Earth into the New Age to come.

So friends and folks, await that time to come. There will be many changes around the world from July of 2014 onwards. Spiritual consciousness shall start prevailing over Earth and man shall be unmade, and remade, with hearts filled with love and compassion for each other and for every living being that God created. You may ask: Oh, is God going to come down Himself to change the world? I will say “Yes. He who has been awaited for a long time will come again, and He shall bring peace and love amongst all without shedding a drop of blood. His name shall be Truth, His form shall be Love and He will come once again, to restore Peace, Love, Harmony and Righteousness in the world.” Whenever the world was in some dire situations, the Lord incarnates on Earth, from age to age.

All we need to do is maintain good karma and eradicate the viruses of anger, greed, hate, violence, jealousy and ego from our minds, thoughts and actions. There is so much of treachery and evil in the world, but man can change this by becoming righteous and through wisdom, tolerance, patience and compassion. Just because there is night, it does not mean that the Sun has gone away. Sun is the center of our universe and sustains life on earth. Sun is the source of Prana, which means life force. Similarly, God is always there. It’s just that the world is reeling under the darkness of Maya, the negative energy, and so we fail to perceive the presence and love of God. Once the earth turns around, there will be light, there will be warmth, there will be happiness and growth and there will be a new day, a new life. As long as we are in the world, there are bound to be dualities in life. There will be joys, there will be sorrows. There will be illusions and delusions. These are the two faces of the same coin. Everything is temporary and nothing is forever. Such is the law of nature, such is the law of Karma.

Predictions for Individuals:

Now, I shall tell you what people of all 12 zodiac signs should expect in the coming year. These effects are based on the Moon signs and not Sun signs as most westerners are accustomed to. As per Hindu Vedic astrology, the emphasis is on the Moon sign which changes every 2 and a half days. The transits of all 9 planets are also reckoned from the position of the Moon as placed in your birth chart.

ARIES: Those who have the Moon sign of Aries are likely to expect some strains in partnerships and relationships. Some may have to leave home or move out. They may also expect some issues with their parents and may experience mental stress. On the positive side, they may get new openings at jobs or businesses and may also find new partners or may connect with someone who they knew since few years back. Overall, they will have a balanced result between now the next 6 months. Aries Moon signs should wear a white Sapphire, or any of the substitutes like White Coral, Blue Topaz, or white Opal to energize their Venus that helps in boosting relationships.

TAURUS: For those who have the Moon sign of Taurus should be careful in money matters for the next 2 weeks or so. They should also be careful with friends as there could be frictions

between friends, relatives or their children. But this is only for few days. For the most part of the year, relationships could be good, or new ones could be in the offing after the middle of the year and from February, there could be new jobs or better business prospects.

GEMINI: Gemini Moon signs will generally have a good year with good and new connections, both personal and with work or business. You could expect some good news from your children and there will be plenty of socializing. However, Gemini Moon signs should pay more attention to their spouses as there may be some differences between them and could lead to separations if they do not control their mind and senses. Try to spend as much time together as possible.

CANCER: Those who have Cancer as their Moon signs have planet Saturn transiting the 4th house from their Moon, thereby causing them mental and emotional stress. Even situations at home front look depressive and children will find it hard to study. Cancer signs are also susceptible to sickness and some may have to deal with litigations. It would be better for Cancer Moon signs to wear a natural Pearl set in silver to help them deal with this stress situation.

LEO: Leo Moon signs will expect some mixed results. Things regarding home affairs and relationships are looking good, but they may expect some issues with children and also their own health pertaining to the digestive system. Women may also experience some problems with the reproductive system and may need medical help. Some issues that Leo signs have been dealing with will get cleared by the end of the year. Health issues can be taken care of by alternative systems like Ayurveda and Homeopathy. It would also be better for Leo Signs to wear a Red Coral and Copper on their body.

VIRGO: Virgo Moon signs have been going through the seven and a half year cycle of Saturn since the middle of 2007 and now have the last year as they finish this Saturn cycle in November 2014 for good. The areas they would have been affected or likely to get affected are – mouth, teeth or throat area, the chest area and their house or home and mother related problems. But things will start looking up for them soon from June this year onwards. By the end of the year, they will be totally free of all tensions. Virgo signs are advised to wear a Blue Sapphire or an Amethyst to protect themselves against the negative energy of the planet Saturn.

LIBRA: Those who have the Moon sign of Libra are bang in the middle of the seven and a half year cycle of Saturn. The planet Saturn becomes exalted (very powerful) in the sign of Libra and will affect the Libra signs by way of work, business, children, mother and siblings. Rahu and Ketu are the two nodes of the Moon and they too, are transiting the axis of Libra and Aries, thereby compounding the effect of Saturn. The good thing is that Jupiter is in a saving aspect and will create some positive relief during this Saturn transit. To protect against the challenges by Saturn, I strongly advise the Libra Moon signs to wear a Blue Sapphire or an Amethyst to filter out the crushing effects of Saturn and also to wear a natural Pearl or a Moonstone to help balance the mental stress, and to pray every Saturday morning and be strictly vegetarian as a balancing of the karma. Astrological measures and spiritual practices can save us from many difficult situations in life. These were practiced since ancient times.

SCORPIO: Moon becomes debilitated in the sign of Scorpio and transits indicate that Scorpio signs may experience some financial difficulty this year. Therefore they should save their money and not spend extravagantly. However, From June 2014 onwards, they will see some good changes and may enjoy holidays and mental contentment. Scorpio signs should take care of their throat area and some problems with the lower intestines. Some could experience Thyroid problems or ENT related issues. So they should take care of these areas of health, and should also wear a nice big Pearl of about 12 to 14 carats set in silver since their Moon is debilitated (weak).

SAGITTARIUS: Those with Moon in Sagittarius are also under the influence of Saturn and another planet called Ketu. So they are also under some stress factors now regarding their work which will be demanding. They may have travels which will also be stressful and may not get much sleep. But otherwise, things will be good for Sagittarius signs. For better improvements in work and relationships, partnerships or marriage, they are advised to wear an Emerald. The Emerald will also strengthen their nervous system and make their brains function better.

CAPRICORN: This is the 10th house of the Zodiac and the 10th house is to do with work, business etc. Capricorn Moon signs may have some changes in their work area, whether a change of job or change of premises or office. They may not have some time with their spouses, or some may have differences with their spouses. All this is valid for the next 11 months. The work area will be good and the personal life will pick up after June/July 2014. So Capricorn signs should give more time at home and be extra nice to their spouses during this year. Since the planet Moon governs their partnerships and relationships, it would be better for them to wear a Natural Pearl on their ring finger.

AQUARIUS: Those who have the Moon sign of Aquarius should be happy as this year holds many promises and will keep them smiling. They will be happy with Family, children, friends and may have holidays and travels. Some may come into money as fortune smiles at them again and again.

PISCES: This is the 12th and the last sign of the Zodiac. The sign Pisces is ruled by Jupiter which is the protector, the giver, the planet of prosperity and happiness. But before Jupiter grants all these, Saturn, the taskmaster prepares you to discipline you so that when the time of abundance comes, one should be in a right state of mind to be able to receive it and utilize the gifts properly. Therefore, success comes a bit late. But happiness and success are only transitory and human minds and moods change our likes and dislikes like the seasons. Therefore wisdom says to remain content with the gifts of destiny and be thankful for whatever we have today. What happened in the past cannot be changed. What happens in the future, we don't know. But today is the moment. Today is the time. Make the most of it and try to be happy for today. Who knows what tomorrow may bring?

Life is but a span of time.
A time of the past and a time in future.
A time of the moment
A momentum of moments
Time is movement

Every moment moves on
Into another moment to come
Time never stills
Time never thrills
Time is just there
Time is now here
And now Time has just gone
So until another time
We shall connect in time

- Dr. Rakesh Kumar

I would like to inform you that all these predictions are based on placement of Moon in your birth chart. But for a proper reading and prediction, we have to study all 9 planets, 27 constellations and their placements in all 12 Zodiac signs. In spite of having the same Moon sign each one of you may have different experiences. Therefore only a personal astrological consultation will give detailed readings.

God bless,
Dr Rakesh Kumar
