JUPITER CHANGES IN OCTOBER!

Hello friends

There are some major planetary changes coming around and many people should be aware of what to expect.

As of today, October 7th 2018 at 0600 hrs, Sun is in Virgo, Moon in Leo, Jupiter, Venus and Mercury are in Libra, Saturn in Sagittarius, Mars and Ketu in Capricorn and Rahu is in Cancer.

The first major change happens when Jupiter moves from Libra into Scorpio on October 10th. This will create lots of positive energy for many people. The next major change will be when Mars moves from Capricorn into Aquarius on November 6th. This Mars movement will be a good one because since a very long time, all the planets have been in the orb of Rahu and Ketu, causing a kaalsarpa yog which is a malefic combination. All the planets are within 6 zodiac signs between Cancer and Capricorn and the other 6 zodiac signs have been empty. Once Mars moves, it will break the jinx of kaalsarpa yog and there will be relief for many people and countries.

On October 17th, the Sun will move into Libra, thereby moving away from the Saturn aspect. This will be very good for many people. Financial stress will go away and many countries will also do much better.

For **Donald Trump**, this Jupiter move will prove to be good. He will be pretty comfortable and do much better.

After Jan 2020, **Hillary Clinton's** career will be over. She will also encounter many health issues.

For America – I had written in my previous predictions that America will do very well financially and it did. The American economy has really boosted up significantly. But from October this year, there are going to be some challenging times for the country until November 2019.

For India – India will have a fresh wave of prosperity and good times. There is going to be significant changes and India will get support from many countries. Businesses will be good, there will be plenty of trades and the economy will be boosted up.

India's Prime Minister Narendra Modi will do slightly better but he will continue to face brickbats from the opposition and his position will be challenged. This will be until April 2020. His position will be questioned and will face some defamation.

I had written previously that Narendra Modi's position will be challenged and the government will be targeted. All this already happened.

The Indian congress opposition leader **Rahul Gandhi's** quest and thrust for becoming Prime minister will get over after 10th October. From April 2019 he will begin the major period of Rahu. Thus the coming days do not favor Rahul Gandhi.

The coming Times:

Unusual movement of planets

Jupiter moves very fast into Sagittarius on March 21st 2019, in just 5 months

Then goes retrograde and re enters Scorpio on April 21st
Jupiter moves back to Sagittarius on Nov 5th 2019

Rahu moves into Gemini on March 6th 2019

Mars moves into Sagittarius in January 2020 until March 2020.

Sun, Saturn, Mercury, Jupiter and Ketu all will be in conjunction in Sagittarius and Moon and Ketu opposite in Taurus in Jan 2020. January 9th and 10th will be a very critical and dangerous situation. This will create a very powerful planetary conflict which could affect the whole world. This will affect America for sure and may create a war like situation. But Saturn will move into Capricorn later on January 24th 2020.

We should all be very cautious and determine as per our individual charts to see how and which areas in our lives are likely to be impacted and take appropriate and preventive measures.

For Individuals born under the 12 Moon signs:

ARIES:

Those born under Moon in Aries will have some progress in their home areas and will earn good during this period until October 2019. They have to be vigilant in their work area until November 6th, and should keep clear of any controversies. It would be better for Aries Moon signs to wear a natural pearl set in silver to keep mentally and emotionally calm.

TAURUS:

Taurus Moon signs may face difficulties in their work and some may have to change their jobs. Those in business may experience sluggish flow and may be stressed out. They are suggested to wear a small Blue Sapphire to counter the malefic energy of Saturn. Those who are single may find partners within a few months.

GEMINI:

For Gemini Moons the career looks very good. There could be increments, promotions, more money and better prospects. But there could be some challenges with spouses and concerns for parents. Home life looks difficult. For the Gemini people also, I would recommend a Blue Sapphire set in silver.

CANCER:

Cancer Moons are presently going through the transit of Mars, Rahu and Ketu which could affect their personal life and health. Mars and Rahu can disturb the mind greatly. But this Jupiter transit is going to be a blessing for them and their lives will be back on track. Those who are looking to have children will be happy. The existing children will do well and they will find some good friends who are positive. Since Rahu is still going to be affecting them, it is advisable to Cancer people to wear a Hessonite set in silver. In Sanskrit it is called Gomedh.

LEO:

Leo Moon signs should be roaring again! Jupiter comes in a very comfortable position in their lives and they would do better in studies, education, and home front.

Saturn could still cause some delays in marriage or relationships. I would advise Leo signs to wear a white Opal set in silver to give strength to their Venus.

VIRGO:

Virgo moons should expect some good news soon. Marriage/relationships and travels are on the cards! Those already married or in relationships will probably go on a holiday and enjoy the trip. There will be some reunions of siblings. All looks good! They can wear an Emerald to enhance their lives in every way.

LIBRA:

Libra Moon signs will do better in their careers and improve health conditions. However until November, they should take care of their respiratory system and fights or disagreements at home fronts. This is because of the Mars and Rahu conjunction. There may be some concerns about children but overall a good year until Nov 2019.

It would be advisable to wear a Red Coral for better results.

SCORPIO:

Those born under Moon are Scorpio are in their last leg of the seven and a half year cycle of Saturn. With Jupiter coming in their Moon signs, this indicates a positive change coming in their lives. There will be respite for their children and will be mentally and emotionally more calm and settled. Some may travel overseas. There may be some concerns or problems to mother. Scorpio signs are advised to wear a natural pearl set in silver.

SAGITTARIUS:

Sagittarius people are in the peak period of the seven and a half year cycle of Saturn which is challenging. They may expect problems with their spouses and problems at work. Some may have

to let go of their work, some may get some shifts or changes. From March 2019 until end of January 2020 will be a difficult period for them. Therefore they are strongly advised to wear a Blue Sapphire to minimize the malefic effect of the planet Saturn.

CAPRICORN:

Capricorn signs have also started their seven and a half year cycle of Saturn and they should guard and control their money and valuable assets. There can be losses, litigation, thefts etc. They should cut down their expenses as money will be hard to come. I feel they should also wear a Blue Sapphire and a White Opal.

AQUARIUS:

Those born under moon of Aquarius will have some new careers and will do well financially. Their problem area will be mental stress. They are advised to wear a Moonstone to keep mentally calm and balanced.

PISCES:

Pisces moon signs will have quite some challenges in their personal lives, relationships/marriage and also in their careers. Some may have to move out, some may have to relocate. This situation will last for about 1 year. After that all will be well. For them too, they should watch out for the period between November 2019 up to the end of January 2020. They are advised to wear a Yellow Sapphire and an Emerald to endure this period and later to enhance their Jupiter and Mercury.

They say "Forewarned is forearmed. Therefore taking timely measure may help prevent major difficulties, and prevent disasters in our lives. These astrological remedies indeed do help and have effects as proven since time immemorial. But we should also exercise practical wisdom and use our intelligence to act in the right directions taking into account the prevailing circumstances.
