**Aggressive Days Ahead**

Dear Friends,

I had written my last newsletter/prediction just a few days ago. I had also given a forewarning about the dangerous planetary configuration happening in this year.

Some of my past predictions have already started happening. But there is more to come. As on September 28<sup>th</sup> 2019, we will have Venus, Mercury, Mars, Sun and Moon all together in the zodiac sign of Virgo. All these planets will be under a severe evil influence of Saturn which is in Sagittarius with Ketu.

Then again, On December 25<sup>th</sup> 2019, we will have Jupiter, Saturn, Sun, Venus, Mercury and Ketu all together in the Zodiac sign of Sagittarius. These kinds of planetary conjunctions can cause huge energy shifts and cosmic clashes. The earth's axis could shift and the Earth's magnetic field would be deflected or there will be a change in the magnetic pattern. This will surely affect planet Earth!

These planetary conjunctions indicate a bad time ahead. Multiple reactions will happen.

1. The world economy will be affected. Many companies will have to shut down because of lack of demands. Many will lose jobs. The automobile and travel and transport industry will be hit hard. Some consumer industries will be affected.
2. Some well know or famous celebrity or politician will pass away.
3. Some politician will be caught and exposed in a financial scam.
4. There will be some water borne disease which will affect many people, specially children. There will also be lots of flooding and water everywhere due to heavy rains, storms and rivers overflowing.
5. Enemies will sneak in through water and try to cause mass destruction in many places, including India. The North and the Southwest coasts will be most vulnerable.
6. There will be destruction and trouble in many parts of the world. People will be agitated and frustrated. I see at least 5 or 6 countries at risk of war. These countries may have some symbol or flags that have a star, crescent moon, triangle, waves of color like water flowing, the red color, green color. There will be country with water on 3 sides that will be involved in war. Countries with names starting with P like Palestine, D like Damascus, Delhi etc, the names sounding of J, like Jerusalem, H like Hezbollah, Ch like China, names sounding from K like Kashmir, and Muslim countries. There will be war on air and on water. And most of these countries will be nuclear powered countries. These situations could go on till April 2020.
7. Oil will become difficult to obtain and some river routes may be closed due to war like situations. All problems with liquids. Rain, floods, water and oil.
8. Jan 9<sup>th</sup>, 10<sup>th</sup> and until Jan 25<sup>th</sup> is a very dangerous time for India.

These planetary combinations could bring major storms, Tsunamis, earthquakes, terrorist attacks, major disasters, some crashes of modes of transportation and last but not the least, a situation of a war. These aspects also indicate a crash of the financial and economic situations of many countries. Many places on earth may experience some disaster or the other. There will be some new inexplicable diseases which could originate from water and could become an allergy which will affect many people. It may affect the blood stream, lungs heart and kidneys. Whenever these powerful planets come in such combinations, the magnetic effects starts before the actual dates and sometimes occur at later dates.

But I warn everyone to be very careful at and around these days.

(September 27<sup>th</sup>, 2019 to October 7<sup>th</sup> 2019, December 24<sup>th</sup> 2019 to Jan 15<sup>th</sup> 2020)

Things to avoid:

1. Travel
2. Major investments
3. Marriages
4. Medical surgeries
5. Stay away from alcohol, drugs and areas of trouble.

Follow the ABC of life.

## INDIA:

The seas and oceans could get rough. Hidden attackers will infiltrate into the country through the water transportation this time. The South and West areas surrounded by water may get be vulnerable. The monsoons in India have already caused huge floods. This has caused many setbacks to the country. The Northern part of India may be under attack. Enemies posing as friends will enter from the east and Southeast coasts and spread terror. There may be explosions and damage to the ports or water coasts. Some famous celebrity will pass away soon. Some big financial scam may be uncovered. Some lady will be in question and may cause big problems to the prime minister.

There will be some water borne disease which will spread fast. Floods will ravage some cities and boats will run on roads.

## AMERICA:

Things are not any better for America. The Moon sign of the American independence chart is Aquarius. And all these planetary energies are exchanging between Virgo and Pisces, and then in December the high power axis will be in the zodiac sign of Sagittarius and Gemini. Things don't look too good for America. As it is, America is going through the major period of Rahu since October 2015. Friends and allies will betray the country. The leadership will be challenged and most of the treasury of the country will go in paying debt, and health and war expenses. From December 2019, things become worse. America may face a recession. From April 2020 America will start recovering but the recovery will happen from April 2021.

## THE MAGNETIC SHIFT:

I had written in my previous newsletters that there will be a shift of the magnetic field around the earth which will change the weather, the geographical layout and the topography of some places around the world. Mountains will fall and some lands will go underwater. There may be huge natural destruction at different parts of the world and the climate and environment will change. The age of mankind of 25000 years is about to end. The new age will bring many changes. Whenever the era of an age ends or a new age happens, there are mass destructions around the world and God and nature sets in a newness in mankind which is endowed by peace, harmony and higher wisdom. Man evolves to a higher consciousness and lives as per divine revelation. Whenever the earth is about to be destroyed, either by man or by nature, God manifests Himself in human form to save the world, to reinstate righteousness and re-establish peace, love and goodness.

## INDIVIDUAL ZODIAC SIGNS:

Who should be most careful?

Those who have the Moon signs of Gemini, Virgo, Sagittarius, Pisces, Aquarius, Aries, Taurus, Cancer and Capricorn are likely to be affected in some way or the other. Therefore they should not travel, invest, or make any major changes like moving or shifting and certainly not go for any major surgeries. During this difficult transit, we should try to lie low, live a routine life, remain in prayers and do good karma.

The question is, are these war like situations inevitable? Yes and No. The planetary alignments do indicate such dangerous situations. While one cannot avoid the natural disasters, we can surely avoid man made disasters. If the world leaders start thinking for the benefit of humanity and refrain from aggressive actions, then yes these wars can be avoided. "Avoid" can become "A void". So let us pray that the world leaders give up their greed for lands and their egos, and the terrorists start valuing human life, so that a grave danger to planet Earth may be averted.

May God bless the world.
