**Planets and the destiny of the world – Dr. Rakesh Kumar****April 6<sup>th</sup> 2020**

An Astrological study and research on planets that have caused mass destruction to mankind and changed the world situations.

Whenever the planet Saturn came into conjunction/opposition with Rahu and Ketu, there was some major calamity in the world.

Whenever the planet Pluto came in conjunction with Saturn, there was mass destruction to humanity. As per the ancient Hindu Vedic Astrological scriptures, the planet Pluto was referred to as Yama, the God of death. Uranus, Neptune and Pluto are planets that move one zodiac sign in about 30 years.

**On Dec 26<sup>th</sup> 2019**, *Saturn*, Sun, Moon, Mercury, *Pluto* and Ketu were all together in the zodiac sign of Sagittarius with Rahu opposite in Gemini. This formed a very dangerous planetary war and would have created huge blasts of negative energy on earth. It was also a **total solar eclipse**. This is when the COVID19 was created in China. I had written about this in my newsletter dated September 15<sup>th</sup> 2019.

Now let's go back in time.

**World War 1** – Started July 28<sup>th</sup> 1914 but actual action began on August 4<sup>th</sup>.

*Saturn* was in Gemini with *Pluto* and Mercury. Rahu was in Aquarius influencing Saturn, Mercury and Pluto. Jupiter was debilitated in Capricorn with Uranus and Neptune opposite in Cancer. So the good planet Jupiter became severely afflicted and the bad planet Saturn got enhanced boost from Pluto, the planet of mass destruction. The war continued until Saturn was with Pluto and then with Neptune until Saturn moved away into Leo and Jupiter the great benefic was already in Gemini overpowering Pluto. Thus ended the planetary war and the World War 1 in November 1918.

**World War 2** – 1939 to 1945

*Saturn* was in Aries, the fiery sign in debilitation in conjunction with *Ketu* and Uranus and Rahu opposite. A very powerful Mars was in Capricorn. Both Mars and Saturn had exchanged their houses and both attacking each other. *Pluto* was opposite *Mars*. This already created a planetary war to bring mass deaths and destruction and much bloodshed to humanity. Evil was at its peak and that's how Adolph Hitler emerged as the most powerful evil man on Earth. The war ended when Uranus had moved into Taurus and Saturn and moved into Gemini and Jupiter became very powerful in Leo and Sun was in exaltation in Aries. This war lasted 6 years and changed the history and geography of the world!

**SARS – 2002** – Corona Virus (Severe Acute Respiratory Syndrome)

Although records say the worldwide pandemic of SARS spread in November 2002, but as per the planets, it shows that it originated somewhere in July 2002 in China. This also came from bats and cats and reptiles that are sold in the wet markets of China. It affected 24 countries where thousands died.

That's when *Saturn* and *Rahu* were in Taurus opposite *Pluto*, *Moon* and *Ketu*. Here again we see the axis of these planets sparking off some great danger to humanity. Adding to this, there was a **total solar eclipse** on December 4<sup>th</sup> 2002. It finally started subsiding around April 2003 when Saturn moved into Taurus away from Rahu, Ketu and Pluto. Jupiter was also in Cancer, granting healing rays on Earth.

### **The great recession – 2008 (December 2007 to June 2009)**

December 20<sup>th</sup> 2007, *Saturn* and *Ketu* were in Leo opposite *Rahu* and *Uranus*. *Pluto* was with *Sun*, *Jupiter* and *Mercury* in Sagittarius with *Mars* opposite. This already created a planetary conflict which would impact the world financially. Some governments would fail and there could be huge financial fraud while the countries around the world would crumble in recession. This continued throughout 2008 and until June 2009.

You must have heard of the Lehman brothers who filed for bankruptcy amounting to a whopping 600 Billion dollars! This happened on September 15<sup>th</sup> 2008.

On August 1<sup>st</sup> 2008, there was a **total solar eclipse**. Sun, moon, mercury and Ketu were together in Cancer with Rahu and Neptune opposite in Capricorn. Pluto was with Jupiter and Saturn and Mars were conjoined together in Leo. This must have been the day the Lehman brothers already hatched the plan to file for bankruptcy. This caused the biggest financial collapse to America since September 11<sup>th</sup> and it is also the largest bankruptcy filing in the history of America.

In fact on March 10<sup>th</sup> 2008 the planets aligned themselves in a very unfavorable pattern which indicated a grave danger and collapse of the world order. Not to forget natural calamities, hidden dangers and huge losses. Sun, Uranus, Venus, Mercury and Rahu conjoined together in Aquarius and *Saturn* and *Ketu* stood opposite in Leo. Jupiter was with Pluto. This also indicated a great treachery and deception planned by some people/companies that would shake up the government and shatter the economy.

Now let's get back to today, April 5<sup>th</sup> 2020 and the future.

As of today, the situation looks grim. There could be many more cases and deaths due to covid19. On April 15<sup>th</sup>, Sun moves into Aries in exaltation. The Sun will finally get power after the terrible eclipse on December 26<sup>th</sup> 2019.

This will be the first cosmic effect that will set to dilute the grave negative energy of corona virus. Then on April 24<sup>th</sup>, Moon gains strength as it enters Taurus in exaltation. The very next day Mercury will also move out of debilitation from Pisces into Aries conjoining Sun. On May 4<sup>th</sup> Mars will move out from Saturn and Jupiter in Capricorn. May 14<sup>th</sup> Venus also moves in with Sun and Mercury in Taurus. This shows businesses will start to pick up again. I feel this is going to be good for the world.

June 21<sup>st</sup> 2020 there will be an annual *solar eclipse*. Sun, Moon and Rahu will be at around 5 degrees in Gemini. This could be ominous for the coming months. Jupiter will come back into Sagittarius on July 4<sup>th</sup>. This will not be good as Jupiter will join Pluto, Moon, and Ketu, opposite Sun, Rahu and Mercury. For the next 10-12 days there may be some financial crisis, or relapse of the virus or some storms, earthquakes or a war like situation. Will be bad for America and India both.

September 23<sup>rd</sup> Rahu and Ketu will move into Taurus and Scorpio. This will be a big relief for everyone. Then Jupiter will move into Capricorn on November 20<sup>th</sup> with Saturn and Moon. I feel this conjunction will bring a big change in the world order. Very important for India and China. December 14<sup>th</sup> 2020 will be another total solar eclipse. January 27<sup>th</sup> to 28<sup>th</sup> 2021 there will be a full Moon. This will auger the signs of a new world, and maybe inaugurate the new age. But not before wiping out the sins of earth!

### **China, India, America.**

China declared as the republic on October 1<sup>st</sup> 1949 at 15:15 hrs. Beijing.

China's chart has Capricorn rising with moon in it. Mars and Pluto are in the 7<sup>th</sup> house in Cancer and Sun, Mercury, Neptune and Ketu in the 9<sup>th</sup> house with Rahu opposite in the 3<sup>rd</sup> house in Pisces. Because of the Moon/Mars and Pluto axis, time and again there will be military action and mass deaths in the country. Most of China's money comes from foreign country as Sun and Mercury are in the 9<sup>th</sup> house and Saturn in the 8<sup>th</sup> house is blessed with Jupiter.

China is going through the peak of the seven and a half year cycle of Saturn until June 2022. Presently Saturn, Jupiter, Mars and Pluto are all in China's Moon sign. China's major ruling period of Saturn is over and the major ruling period of Mercury started in September 2019 which will run for the next 17 years.

Looks like China is going to have problems with some foreign countries and its finances will be troubled. China may face severe consequences from America from June/July this year and the conflict will continue until the end of the year. China will also have conflicts with India. Maybe other countries as well. China's power is going to shift to India as in the coming year, India will emerge very strong. Both economically and by governance. India's military will be total strong.

Presently there is a churning and turning time for India. The country has to be very careful from July 4<sup>th</sup> 2020 to September 20<sup>th</sup> 2020. Same for America, as the previously mentioned planets will cluster in the 7<sup>th</sup> house in Gemini which will not only cause a relapse of the virus and economy but also severe some ties with its allies or other foreign countries.

America will become prosperous again from April 2021 onwards.

- I have written about the effects of Pluto, Neptune and Uranus as they affect countries, times and ages. In individual charts, these outer planets are not taken into account and they do not transit all 12 Zodiac signs in a man's lifetime. They would take 254 years to complete the entire Zodiac transit. However they may represent the collective consciousness in man. The conscious, sub conscious and the unconscious. For some evolved souls, Neptune can open the doors to the super conscious plane. This can give spiritual wisdom, intuition, knowledge from the depth of the cosmic ocean, from the planes of higher Beings. Uranus transmits cosmic energy from outer space into earth from which science, technology and electronics developed. For higher souls it can give the ability of telepathy and communication with the astral beings. Pluto is the planet of death, destruction, transformation, revolution and change of time and age.

***Times will come and times will go  
We learn so much as we grow  
While most of us await our fate  
We must all live in divine faith***

Keep yourself safe, Keep our world safe.  
Love all, serve all, help ever, hurt never.

God bless
