World predictions - Dangerous times, June 15th 2025

~ By Dr Rakesh Kumar (PhD)

Dear Friends,

Recently there has been a lot of unrest, violence and now war. In my earlier newsletter I had written that these planetary positions would create a danger of war. And it is happening. First it started with Pakistan terrorists killing many innocent civilians in Jammu/Kashmir. India in turn attacked Pakistani terrorist camps, and it almost escalated to a full war between the two countries. Then the unrest and violent protests started all over America, especially in Los Angeles. And while this was already going on, Israel suddenly launched missiles on Iran on June 13th. But one day before that on June 12th, an Air India Boeing Dreamliner crashed within minutes of takeoff killing 275 people. And there is more to come.

So let's do an Astrological Research and Study of why this is going on and what to expect in the days to come.

On June 6th around 6 PM EST the planet Mars moved into Leo in conjunction with a malefic Ketu. Mars also is into the constellation (Nakshatra) called Magha which is ruled by the malefic planet Ketu. And since Mars and Ketu ganged up together in the sign of Leo it created a very dangerous volatile energy. So thus began a fiery and a violent atmosphere. On June 6th itself violent protests started in Los Angeles which still continue.

And then on June 12th the Air India plane crashed and exploded into a huge ball of fire. The very next day on June 13th Israel launched a large-scale attack on Iran which also continues along with Iran attacking back, and this has already started a war. On June 14th Pakistan announced it is going to support Iran and Pakistan called out to all Islamic countries in the world to unite and to fight Israel and America.

So we can see the trend leading to a possible world war, if not involving all the countries of the world, but some or many countries taking sides. It was long predicted by Nostradamus that the 3rd world war would begin from the Middle East. And that seems to be happening.

America is going through the last leg of the 7.5 year cycle of Saturn. And it is also in the major period of Rahu and the sub period of Mercury. This does indicate a secret conspiracy or a plan hatched by the opponents. Donald Trump's chart already has Mars in Leo and now in transit Mars has joined Ketu. This clearly shows his opponents will try to create lots of problems for him and try to bring him down. He will be facing a lot of challenges at least for the next 45 days. Some conspiracies against him have already been set in motion. His time right now is very risky.

So between now and July 29th things don't look very good for these war and volatile situations around the world.

Now let's see what happened to the Air India flight. Air India flight 171 took off from Ahmedabad airport for London at 1:38 PM. At that time Virgo was rising with Moon in Sagittarius in Moola Nakshatra, Venus in the 8th house in Aries in Ashwini Nakshatra, Sun in the 9th house in Taurus in Mrigashira Nakshatra, Mercury in Gemini in Aridra Nakshatra, Jupiter also in Gemini in Mrigashira Nakshatra, and Mars in the 12th House in Magha Nakshatra along with Ketu. Also Saturn was impacting the Sun and the Moon both, while Rahu was impacting Jupiter, Mercury and Mars. At one glance these planetary positions would not raise an eyebrow. But if we examine carefully, it was the major period of Ketu in operation. The Moon was in the Nakshatra of Ketu also. Venus too was in the 8th house in the Nakshatra of Ketu. Sun and Jupiter are also in the Nakshatra ruled by Mars. Mercury was in the Nakshatra ruled by Rahu. And finally, Mars in the 12th house in Leo which is in a Nakshatra ruled by Ketu.

First of all, all the planets have been in a peculiar formation called Kala Sarpa Yog where all the planets are engulfed between Rahu and Ketu which occupy $\frac{1}{2}$ of the Zodiac while the other half is empty. I had written about this in more detail... in... The Moon moves in between every 15 days to break the Kala Sarpa Yog, but not altogether since the Moon moves one sign every 2.5 days and changes the Nakshatras frequently.

So coming back to the Air India crash, there are a lot of theories and speculations going around and none has come to a conclusion yet. But from my Astro analysis I feel it was a devious conspiracy to crash this aircraft. Venus in the 8th house in Aries which is ruled by Mars, and Mars in Leo with the notorious Ketu, points towards the destruction of a vehicle in fire and explosion. And because the 8th house is considered to be the house of death, it does indicate a very sad treacherous death to all people in the aircraft.

The question is, why India? As per India's chart Mars, Rahu and Ketu were transiting the 2nd house and the 8th house from the Moon sign. This is one of the reasons that India went through this Air India flight crash. The planets are in a difficult position currently for India which also explains the incident 4 weeks ago where India's ISRO satellite rocket failed at midflight and exploded. Not to mention the terrorist attack from Pakistan which almost escalated into a full war between the two countries.

Now let's take a look at the chart of Iran. The Islamic Republic of Iran was established on April 1, 1979. On that day Saturn and Rahu were in Leo and half the horoscope was empty, opposite Leo in Aquarius there was Venus and Ketu. So Iran's chart also has a Kala Sarpa Yog. It also has the Sun and Mars together, indicating a martian or military controlled country. Now as soon as Mars moved in conjunction with Rahu and Ketu, it triggered off a war on its land. The transit Saturn is already over Iran's Sun and Mars and Mercury. This Saturn transit will also cause wars, destruction and setting down the empire. But from October onwards things will start getting better.

Now all these chaotic situations will continue until 29th July. The question is, can this lead to a World War? Yes, No, Maybe. These situations largely depend on the Ego and Power Greed the leaders of the countries. We can avert wars and mass destruction through restraint, through understanding and without being hard core religious fanatics.

There is only one Race, the Race of Humanity
There is only one Religion, the Religion of Love
There is only one God who is Omnipresent
If we live with the feeling of Brotherhood of Man and Fatherhood of God, then there will be
Peace, Harmony and Prosperity in the world.

God Bless the World.
