Cosmic Calm after 6 days!

Dear Friends,

I am writing a short note because I have been getting a lot of calls and emails from people who are afraid as many picked up some deadly predictions by some astrologers online/YouTube and are now living in fear.

A lot has been happening since June 8th 2025, when Mars came into Leo and conjoined a malefic Ketu and the evil eye of Rahu. And then on June 30th Venus entered Taurus. And on June 29th itself a very malefic planetary combination was formed with Moon, Mars and Ketu together in the volatile sign of Leo with Rahu opposite, Saturn impacting Venus, which among other things also signifies modes of transportation. And Moon was also in a malefic combination called Magha Nakshatra (constellation), ruled by Ketu itself. And also the major period of Ketu was in operation with the sub-period of Saturn. Saturn was also in Pisces (watery sign). And Mars also impacted Saturn. So it was like a planetary nuclear war. And Mars is typically a planet of fire, death, destruction, wars.

Another unique planetary combination also formed, called Kala Sarpa Yog, wherein all the planets were in a lock between Rahu and Ketu.

And because of this there were so many air crashes, nasty wars, secret conspiracies and destruction due to floods at various places in the world. So Mars and Rahu and Ketu were impacting Moon, and this also caused widespread storms, very heavy rainfalls, floods and landslides in various parts of the world. The USA, Europe, Asia, Africa and Australia were hit by floods and disasters. There were also many plane crashes around the world. And to top it off, the constant threat of World War III.

Of course, the planets move at their own pace, like the Moon that moves every 2.5 days and the Sun moves every month, Mercury and Venus also move in a month and a few days. Mars sometimes moves in a couple of months, and sometimes even more. And there are some slow-moving planets like Saturn, which moves in 2.5 years, Jupiter in 1 year, Rahu and Ketu in 1.5 years. So, it is not that things will remain the same for long periods of time. **But on that particular day, June 29th, the planets already activated a very dangerous and a volatile situation for many people and created a very negative energy on the Earth which will take time to dissipate.**

There are many people who predict that these dangerous times are going to go on for another 6-7 months. But I wish to inform the readers not to look into such dire predictions and live in any anxiety or fear. Because as per my foresight, I think it will all finish on July 28th, and the fury of Nature will calm down.

So my friends, this was just a quick update to one and all who are mentally and psychologically impacted by the recent disasters and the dire predictions floating around.

Let there be peace in the world.

OM Shanthi Shanthi Shanthi.

Samasta Loka Sukhino Bhavantu.

God Bless!

Dr. Rakesh Kumar (PhD)
